Test HTML

May 24, 2021

## 1 Test Basic

This is the common text. 这是正常的文本。

**This is the bold text.** 这是加粗的文本。

*This is the italic text.* 这是斜体的文本。

This is the example of inline code section: `function()`

This is the example of quote section:

Winter is coming!

This is the example of reference <sup>1</sup>

This is (1)

This is the example of math equations:

$$\frac{1}{3} \div \mu \cos \quad (1)$$

This is the example of table:

Col1	Col2	Col3
Content1	Content2	Content3

- Unordered list
- 无序列表

1. 有序列表
2. Ordered list

This is the example of codeblock:

```

1  #include <iostream> //meta
2  /*comment*/
3  using namespace std;
4  long l1 = 5;
5  int main(){
6      cout << "This is a good theme in Typora!" <<
      endl;
7      cout << "Latex" << endl;
8  }
```

```

1  # this is the comment
2  int eval range str  #built-in
3  def is return for   #key word
4  "STRING" #string
5  + - * / < > #operators
6  val = 1; #number
```

This is the example of url:

[全面魔改Typora样式，仿照LaTeX写论文 - 知乎 \(zhihu.com\)](#)

[CSS 选择器参考手册 \(w3school.com.cn\)](#)
